

Mounting scheme for ALUGEAR 2X chainrings with AERO cover

Parts list		
N°	Part	Qty.
1	Bolts for covers	4
2	Inner chainring	1
3	Outer chainring	1
4	Crank	1
5	Cover	1

Installation of the ALUGEAR 2X chainrings and covers for Shimano 110 BCD Asymmetric Road 11 or 12 speed cranks:

1. Place an outer chainring from the outside of the crank spider.
2. Place an inner chainring on the inside of the crank spider.
3. Carefully place a cover on the outside of the chainring.
4. Screw the bolts into a cover (the bolts pass through the holes of the inner chainring, crank spider, outer chainring and are screwed into a cover).
